CAREER OBJECTIVE

I'm driven by a passion for coding and problem-solving. I'm excited to join a team where I can grow, innovate, and make a real impact. With a strong foundation in programming, I'm eager to learn and contribute to a dynamic organization. I'm looking for a collaborative environment that fosters creativity and growth.

INTERNSHIPS

Junior Web Developer - Nanlogical Consultancy Services Pvt Ltd, Chennai , India

07/2024 – 09/2024 & 05/2025 - 06/2025

SKILLS

React , REST API, C++, Java, Python, MYSQL, Machine Learning, Data Analysis, AWS Cloud

PROJECTS

[Yoga Instructor Application](#)

- Built a full-stack Yoga Instructor Booking application using **React.js**, **Node.js** and MongoDB.
- Developed **RESTful APIs** to manage user authentication, instructor profiles, session bookings, and schedules.
- Designed responsive frontend interfaces with React for seamless user experience and real-time interaction.
- Implemented secure login, booking management, and role-based access for users and instructors.
- Integrated database operations using MongoDB and optimized backend performance for efficient data handling.

[Vehicle Service Booking Portal](#)

- Built a **Vehicle Service Booking Portal** using React with modular, reusable components and Hooks-based state management.
- Integrated **service listings, booking workflow, and secure authentication** (JWT/Firebase/Auth libraries).
- Introduced **live order tracking** through API polling/Web Sockets for real-time status updates.
- Developed a **responsive, optimized UI** with clean navigation and seamless user interactions.

[AI-Based Clinical-Fit Matching System for Home Nursing](#)

- Built an AI-driven healthcare matching system using **React.js**, **FastAPI**, and **NLP** techniques for intelligent nurse-patient allocation.
- Implemented semantic matching using **MiniLM embeddings** and cosine similarity to accurately map patient requirements with nurse skills.
- Integrated **location-based filtering using the Haversine formula** to ensure efficient and practical nurse assignment.
- Developed an interactive **pre-confirmation chat** system to improve communication, transparency, and trust between patients and nurses.

[Digital Coupon Platform](#)

- Developed a **RESTful backend** using Spring Boot and Spring Data JPA with full CRUD functionality.
- Added **pagination, sorting, and custom query endpoints** for flexible data retrieval.
- Applied **AOP-based logging** to maintain clean observability and modular architecture.
- Utilized **Dependency Injection and layered design** to support scalability and maintainability.

EDUCATION AND CERTIFICATIONS

- **B.E Computer Science and Engineering** - Sri Krishna College of Technology, Coimbatore, TN CGPA - 8.5/10
- **Python Essentials 1 & 2 Cisco Networking Academy**
- **Introduction to Cybersecurity Cisco Networking Academy**
- **Cybersecurity Analyst Job Simulation – Forage TATA**
- **Cloud Computing , Mobile Virtual Reality and Artificial Intelligence, Effective Writing- NPTEL Elite + Silver certification**
- **Java Programming, Data Structures and Algorithms - Infosys springboard**
